Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-35 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Burrell, IV (5,993,089)

With respect to Claims 1,3-4,19, Burrell teaches the first four bit code combined with the second four bit code to produce eight sensor data on the front page diagram , figure 2C

Art Unit: 2854

and claim 13. With respect to Claims 2,27, Burrell teaches the sequence recited in figures 2M-1 to 2M-2. The Examiner has matched up the reverse binary number with the octal number as the basis for this rejection. With respect to Claim 5, Burrell teaches the activation of all eight sensors in figure 2J-2 to active the "insert" function of the keyboard. With respect to Claims 6-18 and 20-35, Burrell teaches the various combinations of producing data, functions and spacing commands in figures 2M-1 to 2M-6. It is noted that since Burrell teaches that different combinations of sensors may be activated to produce the desired result, Applicant has made only obvious modifications to the known input combinations of Burrell. It would have been obvious to one of ordinary skill in the art to modify the inputs of Burrell as an obvious matter of design choice. It is noted that that there is nothing new or unobvious presented in the instant invention with the prior art reference of Burrell in hand. Applicant is invited in the next response to this Office Action to clearly state in unambiguous language that which is new or unobvious over the prior art of Burrell.
